Ease your school's compliance with the Globally Harmonized System

## Focus on Lab safety in your school with chemical labelling from Avery

### Chemical Labelling for GHS Compliance

The December 2018 deadline for compliance is fast approaching! Use these durable labels to get your School Chemistry and Biology Labs' chemical labeling in compliance with the Globally Harmonized System (WHMIS 2015).

Avery UltraDuty GHS Chemical Labels are specifically designed to withstand chemicals, abrasion, sun, water and extreme temperatures. Great for getting all the chemicals organized in your school's labs.

Label size: 2" x 2"  
600 Labels for \$79.99

Label size: 2" x 4"  
500 Labels for \$79.99

Label size: 3.5" x 5"  
200 Labels for \$79.99

Label size: 4" x 4"  
200 Labels for \$79.99

Label size: 4.75" x 7.75"  
100 Labels for \$79.99

Label size: 8.5" x 11"  
50 Labels for \$79.99

- Easily customize and print your required labels on demand using easy-to-use Avery GHS labeling template. The app can import the chemical's details and then you edit.
- Customize labels with your School logo, lot numbers, bar codes, Hazard Warnings or other information, and update as needed.
- The labels resist tearing and scuffing, and stand up to frequent use.
- With high-performance adhesive, they pass the BS5609 protocol for 90-day seawater immersion.
